

HERBAL LIQUEUR

Damonjäg

Product description

We make this excellent liquor based on a merger of 36 botanical herbs, which we bring from the most exotic places of America, like the Amazon River Machu Picchu and Puerto Escondido, Mex.

Texture & Flavor:

Thanks to a perfect column maceration where we add a selection of very fine peppers, DAMONJAG has a very robust body and marked. Followed by a caramel sensation and a color that when we see it reflected in the light, we will notice a beautiful reddish black. Optimal for cocktails.
